

## INDI GRANTS

Edition **October 2020**

Welcome to another bumper edition of *Indi Grants*, a regular newsletter about grant opportunities available to Indi communities.

During August and September, I ran four grants workshops. The workshops were tremendously successful with over 880 registrants – this community involvement demonstrates how important grants are for many groups in Indi

If you weren't able to attend – the good news is that there is a full suite of information on my [website](#); including a recording of a grants workshop, downloadable information sheets and informative 'how-to' videos, that will step you through the process of a successful grant application.

A new, exciting feature of my website is the [Indi Funding Finder](#) – where you can search for grants from many sources – government and philanthropic groups – and also register to receive email alerts about grants that might suit your project.

My aim is to ensure that everyone in Indi has the most-up-to-date, comprehensive information about the widest range of funding opportunities, and the confidence and skills to successfully apply for grants.

### Need a letter of support?

I am always pleased to learn of well-considered projects in Indi and provide a letter of support. You can find an [online form](#) on my website to make a request.

Please allow plenty of time – approximately 10 working days - to ensure that I can consider your project and support your project.

Best wishes
